●●●imprs·mic

International Max Planck Research School for Environmental, Cellular & Molecular Microbiology is seeking applicants for PhD fellowships

IMPRS-Mic is located in the historical, beautiful city of Marburg, Germany

We cover microbiology in the following research areas:

- Molecular & cellular microbiology
- Microbial metabolism & protein structure determination
- Microbial diversity & evolution
- Microbial biogeochemistry
- Microbial ecology
- Microbial genomics
- Microbial symbiosis
- Modelling of microbial systems
- Plant-microbe interactions
- Synthetic microbiology
- Systems microbiology

IMPRS-Mic is a collaboration between Max Planck Institute for Terrestrial Microbiology
Philipps University Marburg
